Full list of author information is available at the end of the article

1 Retraction

The Editors-in-Chief have retracted this article [1] because it shows significant overlap with an article by different authors that was simultaneously under consideration with another journal [2] and with a previously published article by another group of different authors [3]. In addition, the identity of the corresponding author could not be verified: Roskilde University confirmed that Beatriz Ychussie was never affiliated to this institution. The authors have not responded to any correspondence about this retraction.

Author details

¹School of Mathematics and Statistics, Central South University, Changsha, China. ²Mathematics Institute, Roskilde University, Roskilde, Denmark.

Publisher's Note

Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
